

The figure displays a 24x24 grid of 576 small squares, each containing a number from 1 to 16. The numbers are arranged in a pattern that resembles a 24x24 multiplication table, but with some cells containing numbers other than the product of the row and column indices. The numbers are color-coded: 1 (light blue), 2 (blue), 4 (green), 11 (dark blue), 15 (brown), and 16 (gold). The grid is divided into four 12x12 quadrants by a vertical line between columns 12 and 13, and a horizontal line between rows 12 and 13. The numbers are arranged in a pattern that is symmetric across the main diagonal (top-left to bottom-right). The numbers 1, 2, 4, 11, 15, and 16 are the only numbers present in the grid.
